

GSWA MDHDB Drillholes Export

As of the November 2024 release, the GSWA Drillholes Export download and 'Pivoted' DH & SS datasets are hosted on the DEMIRS website.

The download files can be found on the *DEMIRS Download and Software Centre*, the current (as at December 2024) URL for which is:

<https://dasc.dmirs.wa.gov.au/>

In the following location:

The screenshot shows the top navigation bar of the DEMIRS website. It includes links for 'What's new', 'Datasets [GDA2020]', 'Datasets [GDA1994]' (circled in red), and 'Map services and resou'. Below the navigation bar is a list of categories, each with a right-pointing arrow and a folder icon. The 'Company Drillhole and Surface Geochemistry Database' category is circled in red, with a red arrow pointing to it from the left. Other categories include 'Accelerated Geoscience - [GDA1994]', 'Statewide spatial datasets - [GDA1994]', '1:100,000 geological series mosaic images', '1:250,000 geological series mosaic images', '1:250,000 topographic series mosaic images', '3D geology', 'Administrative boundaries', 'Drillholes', 'Geochemistry & Mineralogy', 'Geochronology & Isotope Geology', 'Geology', and 'Geophysical surveys'.
